General description

The assessed route runs from Valiano to Cortona.

It mainly goes along flat country roads, reaching the base of the hill on which Cortona is located and this is the part of the route that climbs with more significant slopes.

The conditions of the pathway do not pose a particular problem, except for some difficult points due to the surface conditions; the final climb towards Cortona is challenging but on the suitable ground surface.

Along the way there are both cultural sites (especially ecclesiastical buildings) and accommodation facilities (open mainly in the spring/summer period).

The conditions of the path make it partially accessible even to people with mobility issues who can still walk independently and to people with visual disabilities (total or partial), if accompanied. There is a lack of equipped rest areas and there are no water supply points.

Useful advice

Recommended period	Spring/Summer
Equipment	Hinking
Any aids	GPS, binoculars
Any aids	-
Recommendation	-

How to reach the pathway (starting point)

Starting point	Piazza della Torre (Valiano)
Destination	Piazza Signorelli (Cortona)
How to reach it	The route can be reached by: <ul style="list-style-type: none"> - Public transport: yes - Private transport: yes
